EXCO TIE ROD EXCO DRAG LINK

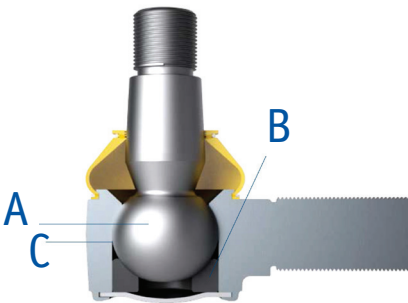

Tie rod end and Drag Link for trucks: Longer part life
Guaranteed at all operating conditions

THE BEST FRIEND OF DRIVERS®

Fairfield, NJ. United States | 973-227-5926 | 201-918-5900
www.excohdparts.com

To make the part more durable we have optimized the design of the EXCO Tie Rod End using more robust materials and this we guarantee with our four-year

(A) OEM ball pin

Ball pin diameter = 1-1/2 INCH

Reduced load-bearing capacity,

Subject to high stress

Rough surface

High surface pressure

(B) Elastomer spring element

Material aging reduces preload

Limited capacity for tolerance Compensation

(C) Metal ball seat (metal on metal)

Unfavorable friction pairing

Warranty. One for many applications
The EXCO Tie Rod end fits various trucks.

(A) EXCO ball pin

Ball pin diameter = 1-3/4 INCH

Load-bearing capacity improved by 25%

Reduced wear owing to a finely polished surface

Minimized surface pressure

(B) Spring system

Permanent compensation for wear thanks to preset joint preload

Long-lasting zero-clearance operation

(C) Highly wear-resistant plastic plain bearings

Engineered to withstand highest levels of stress

Ultra-low and even friction

(D) High-quality rubber sleeve

Long-lasting sealing performance thanks to radial and axial seal system

Superior splash protection

(F) Permanent anti-corrosion protection

Zinc flake coating ensures corrosion-free operation

No extra varnish required
